Aliplast and Mirage recover plastics waste from ceramics

MAY 16, 2024

TAGS **CIRCULAR ECONOMY** **FLEXIBLE FILMS** **FLEXIBLE PACKAGING** **FLEXIBLES**

Plastics recycler Aliplast is joining forces with Mirage to create a circular process for the recovery of plastics films used in ceramic manufacturing. Italian firm Mirage produces tiles for interior and exterior wall and floor coverings, and the production process goes through different steps, during which the tiles are packed several times with the use...
